

# Websites

## Overview

This wiki is the main source of information about Project Wonder, WOLips and WebObjects.

There are also a number of third-party web sites where you can find out more about WebObjects and access articles and sample code.

## WO Developer Mailing List Search pages

- <http://search.lists.apple.com/>
- <http://www.omnigroup.com/developer/maillinglists/webobjects-dev/>

## Sample Code

- <https://github.com/kiberkli/Conference> - A conference organization web app based on a working/deployed solution.
- SimpleBlog
- Project Wonder
- GVC SiteMaker open source code
- XML Binding For Java Client - Software

## Articles/Wikis

- Introduction articles by Joshua Paul
- Paul Lynch articles and sample code
- A few articles relevant to WO

## WO-related Blogs

- <http://davidleber.net/index.php?cat=3>
- <http://worldofwebobjects.blogspot.com/>
- [http://www.twinfoces.com/webobjects\\_tips/](http://www.twinfoces.com/webobjects_tips/)
- <http://terminalapp.net/category/webobjects/>

## Misc

- <http://www.cafepress.com/wowomen> - a WO shirt for the rest of us
- <http://www.cafepress.com/wovrails> - Someone emailed that the "I'm not dead yet" wasn't strong enough, so here's a more violent WO vs Rails shirt 😊
- <http://www.cafepress.com/wonotdead> - "I'm not Dead" Monty Python inspired Rails v. WO
- <http://www.cafepress.com/woeyechart> - An eye chart with "WO" at the top and all the other web acronyms out of focus
- <http://www.cafepress.com/eosimple> - The original simple lineart EO icon
- <http://www.cafepress.com/eo3d> - My personal favorite, the 3D rendering of the stack of EO's
- <http://www.cafepress.com/wolips> - WOLips, the lineart EO icon composed with Eclipse's logo
