

Example Maven POM build section

```
<build>
  <sourceDirectory>${basedir}/src/java</sourceDirectory>
  <resources>
    <resource>
      <directory>${basedir}/src/java</directory>
      <includes>
        <include>**/*.properties</include>
        <include>**/*.wo/**</include>
        <include>**/*.api</include>
      </includes>
      <excludes>
        <exclude>**/build*.properties</exclude>
        <exclude>project.properties</exclude>
        <exclude>target/**</exclude>
      </excludes>
      <filtering>>false</filtering>
    </resource>
    <resource>
      <directory>${basedir}/Resources</directory>
      <targetPath>Resources</targetPath>
    </resource>
  </resources>
</build>
```
