

Two recordings from WOWODC 2010 now available for free!

We just released two recordings from WOWODC 2010 that were previously only available for members who are part of the Community Membership program. The two recordings are:

- Hello D2W! Building your first D2W application
- Integrating and using JasperReports in your WebObjects App

You can find those recordings on the [Screencasts](#) page on wocommunity.org or in the podcasts feed of the community.
