

# How to use a Detail List Page

The *ListCustomer* page in *ERDivaLookExample* is a "detail" list page.

▶ 🔍 ↻	William	Anthony	January 25, 1996
▶ 🔍 ↻	Joanne	Boyles	January 25, 1996
<b>Street Address</b>	29 Timber Creek Drive		
<b>City</b>	Menlo Park		
<b>State</b>	CA		
<b>Zip</b>	93211		
▶ 🔍 ↻	Mark	Capra	January 25, 1996

It's very simple to configure a detail list page.

All you do is add two rules: one for the **subTask** key and the other for the **displayPropertyKeys** of the embedded *D2WInspect*. E.g:

LHS	key	RHS
entity.name = 'Customer' and task = 'list'	<b>subTask</b>	<i>detail</i>
pageConfiguration = 'InspectEmbeddedCustomer'	<b>displayPropertyKeys</b>	<i>("streetAddress", "city", "state", "zip")</i>
